

XXXV Meeting of the Electrochemistry Group of the Spanish Royal Society of Chemistry and 1st E3 Mediterranean Symposium: Electrochemistry for environment and Energy

You are very welcome to the XXXV Meeting of the Electrochemistry Group of the Spanish Royal Society of Chemistry that will be held from July 14 to 16, 2014 in Burgos. Here, for the first time, the

meeting will include a symposium related to Electrochemistry for Environment and Energy co-organized with the Electrochemistry Section of the Italian Society of Chemistry.

This meeting aims to be an excellent forum to gather national and international researches from both academia and industry, as well as to promote the research carried out by groups devoted to

electrochemistry. It will give the opportunity not only to share experiences and knowledge among junior and senior researches and students, but also to improve university-industry relationships.

It is planned the participation of three renowned researches with plenary lectures related to emerging topics, several European electrochemistry research groups, especially from Italy and Spain, and some

companies linked with electrochemistry.

We are very pleased to invite you to join this meeting. Let us to acknowledge in advance your valuable contributions to complete an excellent and interesting scientific program that will deal with different

topics related to electrochemistry.

Informazioni **Luogo:** Burgos - Spain

Welcome to Burgos, its history, its art and its gastronomy that we will have the chance to enjoy in the social events schedule.
