

3rd edition of International School of Process Chemistry - ISPROCHEM 2019

The School will start on Sunday evening and will end on Wednesday early afternoon.

It is sponsored by the Division of Organic Chemistry of the Società Chimica Italiana (SCI) and organized in collaboration with the Department of Chemistry of the Università degli Studi di Milano.

The School will take place in "Palazzo Feltrinelli", a XIX century villa overlooking the lake Garda, which belongs to the Università degli Studi di Milano and is equipped with teaching facilities for up to 150 participants.

The main aim of the school is to TRANSFER to the young generation of chemists willing to DEVELOP their scientific career in the Pharmaceutical industry the fundamentals and the art of Process Chemistry in a positive and friendly environment. In addition, ISPROCHEM aims to be a favorable place for young researchers to SHARE different perspectives and experiences, in view of their future academy - industry relationships.

REGISTRATION deadline is April, 30th 2019.
