

## **EPDIC15 - 15th EUROPEAN POWDER DIFFRACTION CONFERENCE**

Started in 1991, EPDIC is the only European Conference completely dedicated to all aspects of the analysis of polycrystalline materials by diffraction methods.

The aim of the Conference is to highlight the latest developments and achievements in the methodological, applicative and instrumental fields of powder diffraction.

EPDIC15 will be a great forum that brings together scientists and instrumentation companies to discuss about progress in academic and industrial research related to powder diffraction.
