

## ECHEMS 2014 - Electrochemistry in Molecular Understanding

The ECHEMS 2014 meeting is part of an international conference series focusing on new developments in electrochemistry: <http://www.old.chem.au.dk/echems/Meetings.html>

This 10th ECHEMS meeting is themed "Electrochemistry in Molecular Understanding" and will take place in The Swan Hotel in Wells (in Somerset). The topic is broad and inclusive with new voltammetric techniques, new nano-scale materials, and new molecular mechanisms presented in invited talks. The scientific programme will be over two full days in a single session with a mix of invited talks and student presentation. The main aim of the meeting is to allow exchange of ideas and discussion over talks, posters, a BBQ, a dinner, and in a fantastic setting in a historical town in Somerset.

Conference organisation committee:

Frank Marken, University of Bath (main organiser)

Alexander Kuhn, National Engineering School of Chemistry, Biology and Physics (ENSCBP) in Bordeaux (committee)

Marcin Opallo, Polish Academy of Sciences (committee)

Patrizia R. Mussini, University of Milan (committee)

Steen Uttrup Pedersen, Aarhus University (committee)

Günther Wittstock, Oldenburg University (committee)
