Separations

Spectrochimica Acta, Part B, Atomic Spectroscopy

Topical Advisory Panel Member

International Journal of Molecular Sciences

Guest Editor Special Issues

CSI XL/9th EMSLIBS (Pisa 2017), *Spectrochimica Acta, Part B, Atomic Spectroscopy*

CSI XLIII/ASLIBS2023 (Tokushima 2023), *Spectrochimica Acta, Part B, Atomic Spectroscopy*

Recent Advances in Electrode Materials for Electrochemical Sensing, *Sensors*

Molecular Application of Mass Spectrometry and Chromatography in Biomedicine, *Chromatography*

Lipid Metabolism in Age-Related Diseases', *Metabolites*

Advances in Analytical Strategies to Study Cultural Heritage Samples, *Chromatography*

"Early Career Researchers" e "5th Anniversary", *Sensors and Actuators B*

Sensors for Particulate Matter and Air Pollution", *Sensors*

Editor Books

Rapid Antigen Testing

Multidimensional Chromatography

Comprehensive Chromatography in Combination with Mass Spectrometry

Hyphenations of Capillary Chromatography with Mass Spectrometry

Hyphenations of Capillary Chromatography with Mass Spectrometry

Citrus Oils: Composition, Advanced Analytical Techniques, Contamination

Vapor Generation Techniques for Trace Element Analysis. Fundamentals
