

# 3<sup>rd</sup> ICSU/IUPAC Workshop On Crystal Engineering

Friday, February 24, 2017  
Politecnico di Milano – Aula Rogers  
Via Ampere 2, Milano

08:45– 09:00 **Registration**

09:00 – 09:15 **Pierangelo Metrangolo and Giuseppe Resnati**  
Welcome Addresses

## **Scientific Session**

*Chair: Giancarlo Terraneo*

09:15 – 09:45 **Michael Zaworotko**  
*Department of Chemical Sciences, University of Limerick, Limerick, Republic of Ireland*  
“Crystal Engineering of Hybrid Ultramicroporous Materials”

09:45 – 10:15 **Silvia Bracco**  
*Department of Materials Science, University of Milano Bicocca, Milan, Italy*  
“Molecular Rotors in Porous Supramolecular Architectures and Dynamics Modulation”

10:15 – 10:45 **Gabriella Cavallo**  
*NFMLab – DCMIC “Giulio Natta”, Politecnico di Milano, Milano, Italy*  
“From Structure to Function: Engineering New Functional Materials Through Halogen Bonding”

10:45 – 11:15 Coffee break

11:15 – 11:45 **Alessia Bacchi**  
*Department of Chemistry, University of Parma, Parma, Italy*  
“Adding Flavours to your MOFs”

11:45 – 12:15 **Lucia Carlucci, Gianfranco Ciani, Davide M. Proserpio**  
*Dipartimento di Chimica, Università degli Studi di Milano, Milano, Italy*  
“Coordination Networks: Structures, Entanglements and Properties”

12:15 – 12:45 **Javier Martí-Rujas**  
*CNST@Polimi, Istituto Italiano di Tecnologia, Milano, Italy*  
“Crystal Engineering of New Hybrid Metal Organic Materials for Adsorption of Volatile Molecules and their Solid-State Reactivity”

12:45 – 13:15 **Lucia Maini**  
*Department of Chemistry “G. Ciamician”, Università di Bologna, Bologna, Italy*  
“Coordination Polymer or Hybrid Organic-Inorganic Material?”

13:15 Closing Remarks

### **Sponsored by:**

ICSU project CONVINCE “CONcepts and termINology in Crystal Engineering” and IUPAC project “Basic Terminology of Crystal Engineering” (IUPAC Project No. 2012-044-1-100).

No registration fee is required  
Pre-registration *via* e-mail is welcome
