CATALYSIS WITH BASE METALS. MAKING BONDS ALMOST FOR FREE

- Heterogeneous nickel-catalyzed cross-couplings 13
The miracle nutrient coenzyme Q10. We make it...and we take it 14
Copper-catalyzed synthetic methods and applications 15
Bruce H. Lipshutz

STRATEGIES FOR CARBON-CARBON BOND FORMATION

- Recent applications of Diels-Alder strategy in target-oriented synthesis (TOS) 17
Maria Chiara Aversa, Paola Bonaccorsi*
- Trends in catalytic enantioselective conjugate addition reaction 41
Luciano Barboni, Marino Petrini, Elisabetta Torregiani*

ORGANIC SYNTHESIS MEETS OTHER SCIENCES

- Diversity-oriented synthesis. Scaffold generation and decoration 67
*Andrea Basso, Giuseppe Guanti**
- Molecular organic materials for nonlinear optics: how to interact with laser beams and exploit molecular structural properties to make advanced technology 97
Alessandro Abbotto, Luca Beverina*

APPLICATION OF CATALYSIS IN ORGANIC SYNTHESIS

- Stereoselective organic catalysis or how to forget about metals and live happily thereafter 121
Franco Cozzi
- Transition metal catalysed cross-coupling reactions: an useful tool for solving synthetical problems 145
Gianna Reginato
- Alkene metathesis in organic synthesis 169
*Paolo Davoli, Fabio Prati**

NEW TRENDS IN ORGANIC SYNTHESIS

- What about that submerged mouse? A short introduction 193
to fluororous chemistry
Gianluca Pozzi
- The impact of microfluidics on lead optimisation within the drug discovery process for the pharmaceutical industry 217
Stephanie Y. F. Wong-Hawkes, Miryam Fernandez-Suarez, Eduardo Garcia-Egido, Mickael Montembault, Maria J. Chapel*

INDUSTRIAL PERSPECTIVES

- Custom synthesis for active pharmaceutical ingredients (APIs) 241
Vittorio Bozzoli, Mariano Stivanello*

CRITICAL SURVEYS COVERING THE YEAR 2005

Introduction and transformation of functional groups <i>Ernesto Occhiato,* Dina Scarpi</i>	259
Organometallic compounds in organic synthesis <i>Marco Lombardo</i>	283
Solid-phase synthesis <i>Daniele Vigo</i>	307
Total synthesis of natural products <i>Maria Valeria D'Auria, Valentina Sepe, Fulvio Gala, Angela Zampella*</i>	331
